

THE SAFE PLACE TO PARK,  
WHILE YOU ARE AWAY

To California Blimps

Larnaca Cyprus 03/17/2010

Dear Paul

I want to thank you for a grade service and a grade product but what's even more important is the after sale service and support that you have offered to my company.

We are a private long term airport parking facility about 1 kilometer from Larnaca Cyprus new airport and our blimp now is like a land mark for our business it can be seen for a grade distance, and it helps our customers in finding our park, but it also brought us a lot of new business and for that I want to thank you.

I would recommend your blimps to anyone that needs to draw attention to his business and at the same time advertise it's a grade way to do both at a reasonable cost.

Thank you again for all your help.

Marios Constantinou  
General Manager
